The player is given six jumbled letters, and must arrange the letters in the jumble to form as many words of three or more letters as they can. The five English classes occur during the afternoon and give the player the ability to apologize for certain actions, and to deliver more effective taunts. The class has remained unchanged across all versions of the game. Only the Japanese version alters the passing grade, as noted in the infobox. Trivia During English 2, Jimmy can provide "shit" as a word. Mr. Galloway would be amused rather than angry, but it won't count. Upon passing English 4, the taunt option turns to red. After completing English 5, the apology option turns from yellow to green. There is an exploit to complete English classes quickly on Anniversary Edition. Upon activating the English class minigame, the player must switch the game's language setting to Japanese. The player then plays the minigame as usual until it reaches 17% of completion, along with the message saying that Jimmy has passed the class and can leave. This is because in the Japanese releases of Bully, Rockstar assumed many of its Japanese players would fail to recognize and spell most English words, so they made the required percentage to pass much lower.
